

Crossing Over: Positive Perspectives on Death & Dying

In this workshop we will explore positive steps we can take with our loved ones who are transitioning from this life into another realm and how to nourish the soul in the process. How can we approach dying as a transformative experience rather than a source of fear? How can we open up to receive our loved ones coming to us once they've crossed over to the other side? These and other questions shall be explored.

Self Acceptance & Letting Go

During this workshop we will learn positive steps we can take to let go of our own self-judgement and past issues. We will focus on forgiving, embracing and accepting ourselves without guilt or self-criticism.

Spirituality & Breath~Body~Mind™

A workshop integrating imagery, visualizations, energy healing, Qigong based movements, breathing techniques, and meditation. These tools may help you create peace of mind in your own life.

Workshops

Morphology (1-Day Introduction)

A class on face reading. This ancient science dates back 4,000-5,000 years to ancient Egypt. The body of the sphinx illustrates the four temperaments of man in western spirituality.

It combines the face of man, the body of the ox, the legs and claws of the lion, and the wings of the eagle. The face you were born with reveals the temperament and personality you were given in this lifetime.

Morphology can be used by parents to help understand their children and their interactions with them. For each type, supplements, diet, tendencies toward certain illnesses and strengths towards certain types of work, career, vacation and choice of partner will be discussed.

Once you learn morphology you will see the face of God in every human being. You are freed from self-judgment and the judgment of others.

The two morphology classes are independent of one another and thus taking one does NOT shorten the length of the other.

Morphology (2-Day Intensive)

An in depth look at the 4 temperaments (Bilious, Nervous, Sanguine & Lymphatic), characteristics of each, learning how to read the profile of the face, the 12 personalities & how the inner face affects emotions.

How We Become Ill/How We Become Well

A day of inner exploration as we learn how we become ill/how we become well. Through the use of integrated imagery, energy, and morphology discover your body's own healing powers and abilities. This will be a shared journey of transformation where you will come to understand how to use these miraculous tools in your everyday life.

Healing Mind, Body and Spirit

A workshop for anyone interested in healing. In this experiential workshop, healers of all levels will learn how to utilize these tools and will leave with a knowing of how to bring their own healing energies to a higher vibration. They will learn how to integrate these tools in their own practices to broaden and enhance their healing by creating a deeper understanding of their clients' situations and needs, and how to effectively approach them on a personal basis.
