

*“John is an extraordinary healer whom I have been privileged to know all my life and to work with professionally these last three years. His ability to use energy and imagery have changed as well as saved the lives of many of my patients. Miracles still do happen (with John’s help).”*

*Richard Brown, MD  
Author, “Stop Depression Now”*

*“Wonderfully organized, personally transforming.”*

*Gerard Vallone, PhD  
Retired Philosophy Professor*

*“I love this class so much that I have taken it twice! John Carroll is a wise and perceptive teacher of a discipline that one can apply immediately to yourself, your loved ones and, if you are a health professional, your patients. Studying facial morphology, an ancient medical art and spiritual endeavor, helps one to discern optimal diet, exercise and sleep, as well as opening the door to understanding character and temperament. It’s a rewarding way to spend a weekend.”*

*Joanne Ahola, M.D.*

*“Learning Morphology has informed and influenced my practice greatly. I now have a whole new perspective and it helps me to support my client’s road to transformation. Thank you John for imparting this ancient information in a practical way.”*

*Catherine Anesi, LCSW, RM, CST  
Owner and Director of  
The Lighthouse Retreat and Wellness Center*

*“John Carroll is a most capable, worthy and excellent healer of high integrity, compassion and love.”*

*Gerald Epstein, MD  
Author, Healing Visualizations*

### *Morphology (1-Day Introduction)*

A workshop on face reading. This ancient science dates back 4,000-5,000 years to ancient Egypt. The body of the sphinx illustrates the four temperaments of man in western spirituality.

It combines the face of man, the body of the ox, the legs and claws of the lion, and the wings of the eagle. The face you were born with reveals the temperament and personality you were given in this lifetime.

For each type, supplements, diet, tendencies toward certain illnesses and strengths towards certain types of work, career, vacation and choice of partner will be discussed. Morphology can be used by clinicians, employers, parents and others to help understand their patients, employees and children, respectively.

Once you learn morphology you will see the face of God in every human being. You are freed from self-judgment and the judgment of others.

**The two morphology classes are independent of one another. Taking one does NOT shorten the length of the other.**

### *Morphology (2-Day Intensive)*

An in depth look at the 4 temperaments (Bilious, Nervous, Sanguine & Lymphatic), characteristics of each, learning how to read the profile of the face, the 12 personalities & how the inner face affects emotions.

### *How We Become Ill/How We Become Well*

A day of inner exploration where we learn how we become ill and how we become well. Through the use of integrated imagery, energy, and morphology you will discover your body's own healing powers and abilities. This will be a shared journey of transformation where you will come to understand how to use these miraculous tools in your everyday life.

### *Crossing Over: Positive Perspectives on Death & Dying*

In this workshop we will explore positive steps we can take with our loved ones who are transitioning from this life into another realm and how to nourish the soul in the process. How can we approach dying as a transformative experience rather than a source of fear? How can we open up to receive our loved ones coming to us once they've crossed over to the other side? These and other questions shall be explored.

### *Healing Mind, Body and Spirit*

A workshop for anyone interested in healing. In this experiential workshop healers of all levels will learn how to utilize these tools and leave with a knowing of how to bring their own healing energies to a higher vibration. They will learn how to integrate these techniques in their own practices to broaden and enhance their healing by creating a deeper understanding of their clients' situations and needs, and how to effectively approach them on a personal basis.

### *Self Acceptance & Letting Go*

During this workshop we will learn positive steps we can take to let go of our own self-judgement and past issues. We will focus on forgiving, embracing and accepting ourselves without guilt or self-criticism.

### *Spirituality & Breath~Body~Mind™*

A workshop integrating imagery, visualizations, energy healing, Qigong based movements, breathing techniques, and meditation. These tools may help you create peace of mind in your own life.

### *Eclectic*

Any of these workshops can be combined to create a unique experience for your group.
